

# Call for applications for mobility grants reserved to PhD students: non-EU destinations, academic year 2022/2023

## Art. 1 – General information

The PhD School of the University of Verona intends to encourage the mobility of its doctoral students, aimed at carrying out study or research activities at foreign institutions located outside the European Union<sup>1</sup>. Applicants should be resident in Italy or a country other than the participant's destination country.

PhD students enrolled in PhD courses with administrative headquarters at the University of Verona may apply for funding. The mobility period must be completed and concluded during the regular enrollment period. PhD students who are in receipt of a scholarship and/or grant from the University<sup>2</sup> or other bodies cannot apply for a grant under this Call for the same mobility.

Mobilities can take place from **1 November 2022** until **31 October 2023**, for a minimum duration of one continuous month.

The planned activities must be carried out in the Country of destination: the financial coverage of the mobility will be assigned only for the period physically spent abroad and duly certified by the host institution. Therefore, any mobility periods carried out virtually will not be funded.

## Art. 2 – FUNDING

The total budget available will be equal to **140,000 Euros**, of which 90,000 Euros financed by the University of Verona and 50,000 Euros financed by the Italian Ministry of University and Research for the year 2020 (*Fondo per il sostegno dei giovani e per favorire la mobilità degli studenti*).

The amount of the contribution, as required by the Ministerial Decree 989 of 25.10.2019 is established based on the economic condition of the beneficiary: the "ISEE certificate" will be automatically acquired from the INPS database. In the absence of this certification, the contribution will be referred to band 1 (see art. 3).

## Art. 3 – GRANT REQUEST

PhD students enrolled in a PhD Programme course will be able to spend a continuous period of not less than one month at a foreign institution (see Art.1) and apply for funding for a maximum of 6 months. The period of stay abroad may in any case be longer than the financed period.

<sup>2</sup> With the exception of the increase in the PhD scholarship provided for mobility periods abroad. Applicants will be allowed to make use of their own research funds for any mobility periods exceeding the financed one.

Grant amount (University funding)	Ministry co-funding
