ENTRY PROCEDURES, VISAS AND RESIDENCE PERMIT

EU Researchers: entry procedures Long term stays (> 90 days)
Any researcher coming from any EU Member State or EEA country can be defined as “European”. EU member states are: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Italy, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden and United Kingdom. EEA consists of the EU member states plus Iceland, Liechtenstein, Norway, Switzerland. EU researchers are allowed to travel freely and stay either in Italy or in other European Union countries up to 90 days without any formalities. A valid ID or passport is required.

Researchers, who wish to stay in Italy longer than 90 days, have to be registered in the “Schedario della Popolazione Temporanea” (Temporary Residents Card Index) at the Ufficio Anagrafe (Registry Office), submitting these specific documents:
- Passport or valid ID;
- Tax identification code (codice fiscale);
- Work contract or declaration issued by the department on research activities;
- Proof of sufficient financial means (research contract);
- Proof of health insurance (EHIC card or private health policy);
- Rent agreement.

Non-EU Researchers: entry procedures

Long term Stays (≥90 days): Authorisation for scientific research Non-EU and stateless applicants

Step 1

In order to obtain a visa for scientific research and, subsequently, a residence permit for scientific purposes, it is essential to have an authorisation (nulla osta) issued by the Italian Government (except for researchers already resident in Italy, and researchers admitted to other EU member States). The procedure for obtaining a “nulla osta” is carried out by the University of Verona in agreement with ISU (Sportello Unico Immigrazione). Time required: between 30/120 days

Step 2

Once the “nulla osta” is ready, you will receive an official communication from the Research Office of the University of Verona asking you to go to the Italian Diplomatic Mission to collect the visa.

Step 3

Once in Italy the “Sportello Unico Immigrazione - Immigration Center” will schedule an appointment to start the request for the permit of stay. Documents required for the procedure
- Passport
- D type visa “ricerca scientifica” issued by the Italian Diplomatic Mission
- Research contract
- The other documents required by the procedure will be provided by the research office of the University.
Permit to stay

Step 4
After the “Sportello Unico Immigrazione - Immigration Center” procedure, the next step is to submit at the post office the request for the permit of stay at the Post Office. This procedure costs €30 plus €70.46 or plus €16.00 stamp tax “Marca da Bollo”. The post office will give you a receipt of the payment and the date and time of your appointment at the Main Police Station (“Questura”).

Step 5
The last step is the appointment at the Main Police Station (“Questura”) where your fingerprints will be taken (the appointment is usually about 3-4 weeks after the date you send off the documents at the Post Office). Documents required to submit at the post office:
- Copy of the passport - front page
- Copy of the visa
- Immigration forms/ work authorization issued by the “Sportello Unico Immigrazione - Immigration Center” office
- Health Insurance
- Research contract

IMPORTANT: the receipts for payment and for sending off the documentation that the post office gives you stand in for the residence permit until it arrives and should, therefore, be kept and shown with your passport should the police stop you. The residence permit is issued about 30 working days after your appointment at the Police Station. IMPORTANT: while you are waiting for your residence permit you are allowed to carry out your research activities.

The duration of the residence permit is the same as the duration of the research project. If the research project is extended then the residence permit can be extended to the same date.

HEALTH COVER
EU CITIZENS
EU citizens For stays of more than 3 months there are two options: 1) if applicable, you can use form E106 issued by your home country to register with the Verona Health Authority (ULSS). This gives you full access to the Italian Health System plus the right to register with a General Practitioner. 2) if you are not entitled to use form E106 (depending on the rules in your home country), you can opt for private health insurance or Register with the Italian NHS on a voluntary basis by paying a contribution. The contribution is valid for the calendar year. It is neither divisible nor retro-active.

Non-EU citizens
If you have a work visa and have signed a contract with the University of Verona, you have the right to the same health care cover as Italian citizens. This includes:
- Health care during pregnancy and maternity
- Health care for minors
- Access to vaccinations
- Preventive treatment, diagnosis and treatment of infective diseases. In order to be able to use the health system you need to ask for an EHIC card or an STP card. The choice of the card depends on your situation, as explained below. The STP card (STP stands in Italian for “Foreigner on Short Stay”) is issued by the Verona Health Authority (USSL) in case you are not a resident. It gives you access to the health care and the right to register with a General Practitioner. The STP card is valid for 6 or 12 months, it is renewable and it is recognised throughout Italy. The EHIC (European Health Insurance Cover) card is issued if you decide to become resident in Italy. The documents required by the Health Authority are:
  - Your passport
  - The receipts issued by the Post Office attesting the application for a residence permit;
  - Your tax identification code (codice fiscale);
  - A certificate of residence (for EHIC card applications only) ISU can provide a list of General Practitioners who speak English.

Important: the enrollment of non-EU citizens to the national health system will be paid by the hosting department of University of Verona.

CODICE FISCALE (Tax identification code)
The Tax identification code (codice fiscale) number is needed for any payment, to open a bank account, to enrol in the National Health Service, and to sign a house agreement.

EU researchers
The ISU office provides EU researchers invited with tax code upon arrival.

Non Eu researchers
Non Eu researchers will receive the tax identification code during the personal appointment in SUI office.

IDENTIFICATION DOCUMENTS
You should carry an identification document with you all the time. To cash a check or make a purchase with a credit card you may be asked to show a valid form of identification such as your passport.
MONEY & BANKING
Living expenses for the average researcher in Verona are estimated at 850 Euros per month. However, expenses vary depending on your own spending habits and your living situation. Please note that the amounts listed are an estimate and expenses will vary according to individual needs.

Currency and Taxes
The currency in Italy is the EURO. There is 22% consumer tax (IVA) on all goods and services sold in Italy. In stores, this consumer tax is always included in the price (incl. ‘IVA’). Tips are automatically included in all bills so it is uncommon to tip in Italy.

Debit and Credit Cards
All major credit cards such as VISA, MasterCard, American Express, Euro Card and Diner’s Club are widely accepted in large stores, international chains and cash machines. Smaller stores, cafés and University canteens may not accept a foreign card so having a Italian bank account will help. In order to use a bank card in Italy, whether charging to the card directly or withdrawing money from a cash dispenser, you need to have a pincode in order to use it. If your bank card only has the magnetic strip or you usually sign in order to use the card, you will only be able to use it in Italy if you have a pincode. Before your arrival in Italy, contact your bank/credit card company if necessary.

Also, be aware of transaction fees if using a foreign card. Travellers Cheques It is really easy to convert travellers cheques in Italy but it might be an expensive option as there is a substantial fee for cashing them. Most international researchers only use travellers cheques to open a personal bank account as personal cheques are not accepted in Italy.

BANK ACCOUNT
Italian Bank Account
In the city centre there are several banks open from 8.30 am to 12.30 am and from 2.30 pm to 4.00 pm approximately. There are many ATMs 24 hours a day - 7 days a week. All banks require a Tax identification code (codice fiscale) number to open a bank account. Once you have opened an Italian bank account, you will be able to have your rent as other similar payments debited from your account automatically –. You can also then handle your finances via internet banking, which is the most common and cheapest way to bank in Italy. To open a bank account you will receive the necessary support by the International Students Union (ISU).

EMERGENCIES AND MEDICAL ASSISTANCE
Generally, emergency treatment is provided at public hospitals at the Emergency Department (Pronto Soccorso) to patients that have been seriously injured in an accident or have been suddenly taken ill and require an urgent medical treatment. Access to this service is given to patients according to a priority order defined by seriousness of their health condition which is represented by a “colour code.” This colour code is assigned by a specialised nurse at the reception. Emergency medical service is usually free of charge or is provided upon payment of a limited fee. To call an ambulance or to receive first-aid assistance, dial emergency number 118; this service is usually free of charge and available 24 hours a day both on working days and holidays.
