

Curriculum Vitae Roberto Salvia

PERSONAL INFORMATION

Surname/Name: Salvia Roberto
E-mail: roberto.salvia@univr.it
Nationality: Italiana
Date of birth: 08/02/1966
Gender: M

EDUCATION/ POSITION

Date: January 2014
Position: Full Professor and first surgeon at Surgical department Verona University, Italy
Institution: ANVUR – National Agency of University and research system's evaluation

Date: July 2010
Position: Associate Professor and first surgeon at Surgical department Verona University, Italy
Institution: University of Verona

Date: 2002
Position: PhD on Pathophysiological and clinical science of exocrine pancreas (50/50 cum laude)
Institution: University of Verona- Department of Medicine and Surgery

Date: 1997
Position: Full Surgeon: general surgery (70/70 cum laude).
Institution: University of Verona- Department of Medicine and Surgery

Date: 1991
Position: Degree in Medicine and Surgery (110/110 cum laude).
Institution: University of Verona- Department of Medicine and Surgery

POSIZIONI LAVORATIVE

Date: From 1st of November 2014 – today
Position: Executive Responsible of Pancreas Institute
Institution: Pancreas Institute

Date: From 1st of November 2018 – today
Position: Full Professor and first surgeon at Surgical Department Verona University, Italy
Institution: University of Verona

Date: From June 1999 to 31st October 2014
Position: MD at Department of General and pancreatic Surgery-
Pancreas Institute (highly skilled on HPB Surgery)
Institution: AOUI Verona- Verona Hospital

Date: From January 2011 – to December 2013
Position: MD at Department of General Surgery (highly skilled on HPB
Surgery)
Institution: AOUI Verona- Verona Hospital

Date: From June 1999 – December 2010
Position: MD at Department of General Surgery
Institution: AOUI Verona- Verona Hospital

CLINICAL AND SURGICAL ADVICES

Date: May 2013 - today
Posizion: Advisor of Pancreatic Surgery
Institution: “San Carlo” Hospital of Potenza.

Date: August 2009 – December 2012
Posizion: Advisor of HPB Surgery
Institution: “Casa di Cura dott. Pederzoli- Peschiera del Garda (VR).

Date: August 2009
Position: Senior Register
Institution: HPB Department of Southampton University Hospital - UK.

RESEARCH EXPERIENCE

Date: January-February 2003
Position: Research Fellow
Institution: Surgery Department of Massachusetts General
Hospital (Harvard Medical School, Boston, USA).

Date: June- December 2002
Position: Research Fellow
Institution: Surgical laboratory of Massachusetts General Hospital -
Boston (Harvard Medical School).
Chairman: Prof. AL Warshaw.
PI: Prof. Carlos Fernandez del Castillo.

Date: October – November 2001
Position: Observer Physician
Institution: Surgical Department of Massachusetts General
Hospital (Harvard Medical School, Boston, USA).

Date: November 1997 – May 1999
Position: Observer Physician
Institution: General Surgery - Hospital Policlinico G.B. Rossi,

University of Verona, Italia

Date: November - Dicembre 1995
Position: Observer Physician
Institution: "Claudio Benati" Zumbahua-Cotopaxi Hospital. Equador.

Date: July - August 1994
Position: Servizio di volontariato medico
Institution: Ospedale "Claudio Benati" Zumbahua-Cotopaxi. Equador

Date: 1992 – 1997
Position: Surgical Resident
Institution: School of General Surgery Hospital Policlinico G.B. Rossi,
University of Verona, Italia

Date: 1990 – 1991
Position: Surgical Resident
Institution: Head Prof. Adamo Dagradi- Hospital Policlinico G.B. Rossi,
University of Verona, Italia

SCIENTIFIC CV

Field of interest

Clinical Research: Exocrine and endocrine pancreas neoplasm. In particular the reserch is focus on cystic neoplasm of pancreas, surgical and laparoscopic techniques.

Scientific Cooperations and Clinical Studies

Project: Intravenous vs. epidural analgesia to reduce the incidence of gastrointestinal complications after elective pancreatoduodenectomy. Adaptive pragmatic randomized, controlled multicenter superiority trial with two parallel study groups (RCT). 2016
Istitution: General and Pancreatic Surgery Verona
PI: Roberto Salvia
Promotore: Heidelberg University Hospital
No-Profit 803 CESC

Project: Phase II study of intraoperative electrochemotherapy in patients with unresectable pancreatic cancer 2016
Istitution: General and Pancreatic Surgery Verona
Co-PI: Roberto Salvia

No-Profit 834 CESC- EudraCT Number 2015-002077-37

Project: "Multimodal treatment of locally advanced PDAC: Might SMAD4 point us to tailored therapy?"

Istitution: General and Pancreatic Surgery Verona

PI: Roberto Salvia

No-Profit 607 CESC

Project: Prospective survey on pancreatic cystic lesionsprospettica sulle lesioni

Istitution: General and Pancreatic Surgery Verona

Co-PI: Roberto Salvia

Sponsor: AIGO (Associazione Italiana Gastroenterologi e Endoscopisti Ospedalieri)

AISP (Associazione Italiana Studio Pancreas)

No-Profit 679 CESC

Project: Total pancreatectomy: multicentric observational study on indications, operative outcomes and prospective evaluation of long term outcome and quality of life

Istitution: General and Pancreatic Surgery Verona

PI: Roberto Salvia

No-Profit 651 CESC

Project: PanIntraNet – International Network on Pancreatic Intraductal Papillary Mucinous Neoplasms

Istitution: General and Pancreatic Surgery Verona Co-PI: Roberto Salvia

Project: Natural History of Serous Cystadenomas.

Istitution: Centro Coordinatore: Hopital Beaujon, Paris (coordinating center)

Co-PI: Roberto Salvia

Project: The importance of fistula variance after pancreaticoduodenectomy

Institution: Penn University, Philadelphia

Major informations: The main aim is to verify the differences between the point of view of surgeon and institution about the incidence of POPF and relating treatent.

Project: European Common Interest Group on Pancreatic Cystic Neoplasms

Institution: Centro Coordinatore: Karolinska Institutet, Stockholm

Major informations: The aim of the group to review international guidelines on cystic neoplasms and realize new multicentric studies on this field

Project: Observational study of the prevalence and incidence of extapancreatic neoplasms in patients with IPMN.

Institution: General and Pancreatic Surgery Verona and Karolinska Institutet, Stockholm; Technische Universitat Munchen; University of Izmir

Major informations: A Multicentric project, finish on April 2014, show us a prevalence and incicence of extrapancreatic neoplasm in 1340 patient affected IPMN.

Grant :

Date: November 1997- October 1998
Grant: Health Project 96/97": Winner of Cariverona
Project: "Postsurgical treatment of PDAC"

Membership of scientific societies

Società Italiana di Chirurgia (SIC)
Associazione Italiana per lo Studio del Pancreas (AISP)
European Pancreatic Club (EPC)
International Association of Pancreatology (IAP)
The Pancreas Club Inc.

Congress 2001

1 Bari, 16 th of March 2001
Seminars of Clinical Physiopathology and Surgery Therapy (XI year)
"Closed Drainage" in "Acute Biliary Pancreatitis"

2 Atessa, 2nd of June 2001.
1° Surgery Conference: "News on Pancreatic Surgery".
Surgical treatment of acute pancreatitis ".

3 Giardini Naxos (ME), 5-6th of October 2001
"Acute Pancreatitis"
"Abscess, pseudocyst and fistula. Role of Surgery"

2003

4 Boston, MA. 6th of March 2003.
Invited speaker at the Massachusetts General Hospital, Harvard Medical School.
"Cystic Tumours of the pancreas. Can Malignancy be predicted in Main Duct IPMNs
of the pancreas?"

2004

5 Siena, 6-8th of May 2004
XVII National Congress SPIGC
"Extended lymphadenectomy"

- 6 Abano Terme, 23th of June 2004
VI Italian- Hungarian Meeting
“Symposium on Intraductal Papillary Mucinous Tumors: Can malignancy be predicted by clinical findings?”
- 7 Enna Bassa, 10-11th of September 2004.
“Evidence-based medicine on pancreatic diseases”(speaker and moderator)
"Cystic tumors"
- 8 Enna Bassa, 10-11th of September 2004
“Evidence-based medicine on pancreatic diseases”(speaker and moderator)
“The role of surgery in locally advanced pancreatic cancer”
- 9 Thessaloniki, 2-5th of October 2004.
24th Panhellenic Congress of Surgery
“Chronic Pancreatitis. Diagnostic and Therapeutic Advancement”
- 10 Verona, 28-30th of October 2004
XXVIII National Congress of Italian Association for the Study of Pancreas (AISP)
“Intraductal Papillary Mucinous Tumors. Surgery Therapy: where to stop?”
- 11 Bologna, 11th of December 2004
Acute Pancreatitis Disorders: Comparative Opinions.
“Surgical Therapy "in" Sterile Necrosis: Surgical or Medical Therapy?”
- 2005**
- 12 Peschiera del Garda (VR), 23th of April, 2005
Professional Upgrade Course on Pancreatic Diseases
“Pancreatic cancers: cystic tumors”
- 13 Verona, 2-5th of May 2005
Theoretical-practical updating course on diagnosis and treatment of inflammatory diseases of the pancreas.
“The differential diagnosis of pancreatic diseases. Localized or diffused Wirsung's duct dilation”
- 14 Firenze, 28-31th of May 2005
16th Annual Meeting and Postgraduate Course ESGAR 2005
“Cystic pancreatic lesions: a surgeon’s perspective”
- 15 Roma, 15-17th of June 2005
XVII National Congress SPIGC
“Pancreatic papillary tumors: a new clinical entity”
- 16 Verona, 8-10th of September 2005.
The Pancreas: the modern imaging diagnostics.
“Cystic tumors. Clinical Overview. Questions to the Radiologist”
- 2006**
- 17 Legnago (VR), 7th of October, 2006

Pancreatic cystic neoplasms.
“Medical assistance after pancreatic surgery”

- 18 Santo Stefano di Camastra, 9-10th of June 2006.
Updating in Surgery and Oncology.
“The role of lymphadenectomy in pancreatic cancer”

2007

- 19 Verona 6-9th of June 2007.
4th Congress of the Italian Chapter of the International HPB Association
“Update Lecture: Cystic Tumours of the pancreas”
- 20 Verona 6-9th of June 2007
7th Congress of the European Chapter of the European HPB Association
“Intraductal papillary mucinous Tumors”
- 21 Parigi, 27-31th of October 2007
15th United gastroenterology Week
“IPMN: when to operate, when to observe”
- 22 Kaunas, Lithuania, 9-10th of November 2007

Round table: early recovery after Pancreatic Surgery
- 84 Lione 14th of November 2014
HPB SurG Meeting 2014
Surgical indications in cystic pancreatic neoplasms
- 85 Roma 27th of November 2014
Locoregional treatments present or future?
- 2015**
- 86 Amburgo 9-10th of April 2015
Global Clinical Council for Liver & Pancreas Surgery
- 87 Manchester 21-24th of April 2015.
11th Congress of The European-African Hepato-Pancreato-Biliary Association
"Presentation of clinical cases and brainstorming"
- 88 Washington 15-16th of May 2015.
49th Annual Meeting of the pancreas club

“Inaccuracy of pre-operative size determination in pancreatic neuroendocrine tumors: a retrospective study on 199 patients”

“Beyond the numbers: the pattern of lymph node metastasis allows for distinguishing different N+ categories- reappraisal of the Japanese classification of lymph node metastases in pancreatic adenocarcinoma”

“Predictors of postoperative outcome after distal pancreatectomy: the answer from two high-volume”

“Pre-operative physical status and mortality in patients undergoing major pancreatic surgery”

“Para-aortic lymph nodes metastases from ductal adenocarcinoma of the pancreas: do they really make a difference?”

- 89 Porto 9-10th of June 2015.
HEBIPA meeting 2015-Pancreas Neoplasm
“Pancreas Cancer- Surgery for pancreatic cancer: state of the art”
- 90 Berlino 12-13th of June 2015.
DGVS Spring Conference 2015- Pancreatology: Clinical and Translational Research
“Registries for Pancreatic Disease”
- 91 Napoli 9-12th of September 2015.
XXXVIII Congress SICO
“When to resect an IPMN”
- 92 Verona 26th of September 2015
Surgery Society of Tyrol, Veneto and Lombardia
“Main biliary duct lithiasis”
- 93 Peschiera 28-30th of September 2015.
Advanced course of pancreatic surgery-from diagnostic surgery to therapeutic strategies “Pancreatic cystic neoplasms: when the surgery and when the follow up ”
- 94 Barcellona October 2015
UEG Week 2015
Pattern of recurrence in resected IPMN of the pancreas: preliminary results from a multi-institutional international study
- 95 Monza 6th of October 2015
Pancreatic cystic neoplasms
- 96 Milano 23th of October 2015.
XXXIX National Congress AISP
“Follow-up IPMN: why MRI”
- 97 Milano 21-24th of October 2015
117° National Congress of the Italian Society of Surgery.
Italian surgery in the year of the expo: ready for the challenges
"Focus on: IPMN Treatment: Current Evidence"
"Using RMN and US in Special Clinical Situations”
- 98 Marsiglia 5th of November 2015

Study on IMILT in locally advanced pancreatic carcinoma training of study teams

- 99 Padova 10th of November 2015.
Gastroenterology Department , Padova University,
Gastroenterology Specialization School
"Pancreatic Cysts: Surgical Approach"
- 2016**
- 100 Baioana 10th of March 2016.
E- AHPBA II International Congress on Hepato-pancreatic-biliary Surgery
"Complications in HPB Surgery"
"Pancreatic leak how to avoid grade C"
- 101 Bassano del Grappa 27th of May 2016.
The emergency for the general surgeon
"Emergent Interventions in General Surgery"
- 102 Padova 17-18th of June 2016.
National Congress ISSE
"Pancreatic Neoplasms"
- 103 Oporto 30th of June- 4th of July 2016.
HEBIPA meeting 2016
"Intraductal papillary mucinous neoplasm of the pancreas: criteria for surgery"
"Local ablative strategies for pancreatic cancer: a review"
- 104 Sendai 5th of August 2016.
International Consensus on the Management of IMPN-IAP 2016
"Does the size of mural nodule matter to predict malignancy in BD-IPMN? A systematic review of the literature and single high-volume center experience"
- 105 Napoli 16th September 2016.
ACOI Congress - Pancreatic surgery between tradition and technology
Duodenocephalopancreasectomy Robotic technique / Open technique
- 106 Torino 4-5 November 2016.
XVII Corso di formazione Interregionale FISMAD- ANOTE/AIGEA
Gastroenterologia 2016: modelli gestionali a confronto "Chirurgia: quando?"
- 107 Roma 25-29 September 2016.
Congresso Congiunto delle Società Scientifiche Italiane di Chirurgia
"Pancreatiti"
- 108 Peschiera 17-19 October 2016.
II° CORSO AVANZATO DI CHIRURGIA PANCREATICA
Dall'iter diagnostico alle strategie terapeutiche
"Neoplasie cistiche del pancreas : quando la chirurgia e quando il follow up"
- 109 Perugia 23-25 October 2016.
2nd International Conference of Surgical Oncology
"Do we do the same? Present practice and results of surgery after neoadjuvant treatment in two high-volume centers"

- 110 Bruxelles 28 October 2016.
Sixteenth Postgraduate course HPB
Benign and precancerous lesions of the liver, biliary tract and pancreas
- 111 Peschiera 4 November 2016
Imaging Pancreatico“PEDERZOLI”
“LESIONI CISTICHE SIEROSE E NEOPLASIE MUCINOSE CISTICHE”
“Clinica, Anatomia Patologica ed Imaging”
- 112 Thessaloniki 9-12 November 2016.
30th Panhellenic Congress of Surgery
“Cystic tumors management: Beyond the guidelines”
- 113 Roma 11-12 November 2016.
Quality and Innovation in Pancreatic Disorders
“Q&I in the Diagnosis and Treatment of Pancreatic Cystic Lesions”
- 2017**
- 114 Verona 3-5 April 2017.
Corso di chirurgia pancreatica: “Neoplasie Cistiche: strategie operatorie”
- 115 Budapest EDS 27 April 2017.
EDS: “Management of pancreas cancer”
- 116 Verona 12-13 May 2017.
Arena 2017: “Imaging dei tumori del pancreas”
- 117 Mainz 23-26 May 2017.
12th Biennial Congress of the E-AHPBA: “Management of complications in HPB surgery”.
- 118 Bari 8-10 June 2017.
Congresso nazionale unitario della endocrinochirurgia italiana: “Risparmio di parenchima : caso clinico e analisi della letteratura ”.
- 119 Torino 16 June 2017.
ACOI Piemonte “Il tumore del pancreas all’Ospedale San Giovanni Bosco di Torino – II Edizione. Focus on lesioni cistiche”
- 120 Atlanta 19-21 June 2017.
Global Clinical Council for Liver and Pancreatic Surgery
- 121 Modena 22-24 June 2017.
XIV Edizione del Seminario Nazionale delle Scuole di Specializzazione e dei Dottorati di Ricerca in Chirurgia Generale e Specialistica.
- 122 Budapest 28 June- 1 July 2017.
EPC: “Neoadjuvants in pancreatic cancer”.
- 123 Oporto 7-8 July 2017.

HEBIPA MEETING 2017: PANCREAS SURGERY- “Pancreatic leak: how to manage and how to prevent?”

124 Bogotà 22-25 August 2017.
43° Congress “Advances in Surgery”

Correlatore tesi dottorato:

Mutazioni attivanti dell’oncogene GNAS nelle neoplasie intraduttali papillari mucinose del pancreas : correlazioni tra profilo genetico e parametri clinico-patologici.

Relatore: Prof. Claudio Bassi

Correlatore: Prof. Roberto Salvia

Candidato: Dott. Marco Dal Molin

Anno Accademico: 2012-2013

Relatore e Correlatore di tesi di specialità

Analisi critica di venti tumori intraduttali papillari mucinosa sottoposti a pancreasectomia totale. Indicazioni e risultati nella nostra esperienza.

Relatore: Prof R. Vecchioni;

Specializzando: Dott. F. Nacchia.

Anno Accademico 2002-2003

I Tumori solidi pseudopapillari del pancreas: caratteristiche clinicopatologiche. Revisione critica della nostra esperienza.

Relatore: Prof. R. Vecchioni;

Specializzanda: Dott.ssa V. Parisi.

Anno Accademico 2002-2003

Pancreasectomia Totale: indicazioni e qualità della vita

Relatore: prof. P. Pederzoli.

Specializzando: Dott. P. Muselli

Anno accademico 2006-2007

L’indicazione chirurgica basata sull’evidenza nel trattamento del cistoadenoma sieroso del pancreas: analisi su 241 osservazioni.

Relatore: Prof. P. Pederzoli.

Specializzando: Dott. M. Orciuoli

Anno accademico 2006-2007

Mutazioni attivanti dell’oncogene GNAS nelle neoplasie intraduttali papillari mucinose del pancreas: correlazioni tra profilo genetico e parametri clinico-patologici.

Relatore: Prof. Claudio Bassi.

Specializzando: Dott. Marco Dal Molin

Anno accademico 2012-2013

Correlazione tra ASA score e Clavien-Dindo classification nella predittività della chirurgia pancreatica

Relatore: Prof. Claudio Bassi
Correlatore: Prof. Roberto Salvia - Dott. Vittorio Schweiger
Specializzando: Dott. Camilla Cena
Anno Accademico: 2012-2013

Studio di coorte sull'incidenza di neoplasie extra-pancreatiche in pazienti con neoplasia intraduttale papillare mucinosa dei dotti secondari del pancreas
Relatore: Prof. Claudio Bassi
Correlatore: Dott. Roberto Salvia
Specializzando: Dott. Giuseppe Malleo
Anno Accademico: 2011-2012

Coinvolgimento linfonodale nell'adenocarcinoma pancreatico: fattore stadiativo o anche prognostico?
Relatore: Prof. Claudio Bassi
Correlatore: Dott. Roberto Salvia
Specializzando: Dott. Francesco Gulino
Anno Accademico: 2011-2012

L'indicazione chirurgica basata sull'evidenza nel trattamento del cistoadenoma sieroso del pancreas
Relatore: Prof. Paolo Pederzoli
Correlatore: Dott. Roberto Salvia
Specializzando: Dott. Marco Orciuoli
Anno Accademico: 2006-2007

Pancreasectomia totale: indicazioni e qualità della vita
Relatore: Prof. Paolo Pederzoli
Correlatore: Dott. Roberto Salvia – Dott.ssa Silvia Girmenia
Specializzando: Dott. Pietro Muselli
Anno Accademico: 2006-2007

Tumori solido pseudopapillari del pancreas: caratteristiche clinicopatologiche revisione critica della nostra esperienza
Relatore: Prof. Roberto Vecchioni
Correlatore: Prof. Paolo Pederzoli - Dott. Roberto Salvia
Specializzando: Dott. Valeria Parisi
Anno Accademico: 2002-2003

Analisi critica di venti tumori intraduttali papillari mucinosi sottoposti a pancreasectomia totale indicazioni e risultati nella nostra esperienza
Relatore: Prof. Roberto Vecchioni
Correlatore: Prof. Paolo Pederzoli - Dott. Roberto Salvia
Specializzando: Dott. Francesco Macchia
Anno Accademico: 2002-2003

Relatore e Correlatore tesi laurea

Qualità della Vita dopo Pancreasectomia Totale: risultato di uno studio prospettico.
Relatore: prof. P. Pederzoli.
Laureando: S. Girmenia.
Anno accademico 2005-2006.

Duodenocefalopancreasectomia oltre l'intervento chirurgico: qualità di vita e correlazioni anatomo-cliniche nei pazienti lungo-sopravvissuti.

Relatore: prof. P. Pederzoli.

Laureanda: F. Mazzeola

Anno accademico 2006-2007

I tumori cistici sierosi.

Relatore: prof. P. Pederzoli.

Laureando: R. Rossini.

Anno accademico 2006-2007

Il tumore solido pseudopapillare del pancreas: caratteristiche clinicopatologiche e strategia chirurgica.

Relatore: Prof. P. Pederzoli.

Laureando: Creciun Mihail

Anno Accademico 2006-2007

Indicazioni al trattamento chirurgico nei tumori cistici sierosi del pancreas: dall'incremento dimensionale alla pancreatite cronica ostruttiva.

Relatore: Prof. Paolo Pederzoli.

Laureanda: Marta Massignani

Anno Accademico 2007-2008

Le neoplasie cistiche del pancreas: dalla clinica alla ricerca di base. Nuovi approcci terapeutici.

Relatore: Prof. Paolo Pederzoli.

Laureanda: Marina Pains

Anno Accademico 2008-2009

Le Neoplasie Papillari Mucinosi Intraduttali dei Dotti Periferici del pancreas. lesioni sospese tra sorveglianza e chirurgia.

Revisione anatomopatologica e clinica alla ricerca di nuovi parametri terapeutici e prognostici

Relatore: Prof. Paolo Pederzoli.

Laureando: Antonio Pea

Anno Accademico 2009-2010

Le neoplasie Intraduttali papillari mucinosi dei dotti periferici: i sit time to (sometimes) "Spare the Knife"?

Relatore: Prof. Claudio Bassi.

Laureando: Federico Accordini

Anno accademico 2011-2012

Le neoplasie extrapancreatiche nei tumori intraduttali papillari mucinosi del pancreas: incidenza e comparazione con il registro tumori italiano.

Relatore: Prof. Claudio Bassi.

Laureando: Alex Borin

Anno accademico 2012-2013

The actual incidence of pancreatic cystic neoplasm-related symptoms

Relatore: Prof. Roberto Salvia

Correlatore: Dott. Giovanni Marchegiani

Laureando: Chiara Miatello
Anno Accademico: 2015-2016

Thirty years of experience at a pancreas clinic on cystic neoplasms of the pancreas: from surgery to surveillance

Relatore: Prof. Roberto Salvia
Correlatore: Prof. Giovanni Marchegiani
Laureando: Andrea Caravati
Anno Accademico: 2015-2016

The role of the mural nodules in predicting malignancy in IPMNs: a meta-analysis and a single high-volume center experience

Relatore: Prof. Roberto Salvia
Correlatore: Dott. Giovanni Marchegiani – Dott. Stefano Andrianello
Laureando: Giorgia Romanò
Anno Accademico: 2015-2016

Ne' solidi ne' cistici: net cistici del pancreas

Relatore: Prof. Roberto Salvia
Correlatore: Dott. Giovanni Marchegiani – Dott. Luca Landoni
Laureando: Greta Montagnini
Anno Accademico: 2015-2016

La terapia neoadiuvante ridefinisce i principali parametri patologici e il pattern di diffusione linfonodale dell'adenocarcinoma pancreatico

Relatore: Prof. Roberto Salvia
Correlatore: Dott.ssa Laura Maggino
Laureando: Andrea Montresor
Anno Accademico: 2015-2016

Does neoadjuvant therapy affect the development of postoperative complications in patients undergoing pancreatic resection for adenocarcinoma?

Relatore: Prof. Roberto Salvia
Correlatore: Dott.ssa Laura Maggino
Laureando: Alessandra Binco
Anno Accademico: 2015-2016

Capacità predittiva di quattro indici di rischio sulle complicanze dopo duodenocefalopancreasectomia

Relatore: Prof. Roberto Salvia
Correlatore: Dott. Giuseppe Malleo
Laureando: Martina Adamo
Anno Accademico: 2014-2015

Trattamento multimodale dell'adenocarcinoma del pancreas: può SMAD-4 indirizzarci ad un trattamento a misura di paziente?

Relatore: Prof. Roberto Salvia
Correlatore: Dott. Salvatore Paiella
Laureando: Clizia Gasparini
Anno Accademico: 2014-2015

Analisi dei fattori predittivi di malignità delle lesioni del pancreas distale: quando astenersi dall'intervento chirurgico indipendentemente dalla diagnosi di natura della lesione

Relatore: Prof. Roberto Salvia

Correlatore: Dott. Giovanni Marchegiani

Laureando: Tommaso Pollini

Anno Accademico: 2014-2015

Il ruolo dell'infermiere nella cooperazione internazionale: interventi sul campo per contenere una nuova epidemia: l'ebola

Relatore: Prof.ssa Elda Baggio

Correlatore: Prof. Roberto Salvia

Laureando: Calogero Sicorello

Anno Accademico: 2013-2014

Le neoplasie extrapancreatiche nei tumori mucinosi papillari intraduttali periferici del pancreas: incidenza, prevalenza e comparazione con il registro tumori italiano

Relatore: Prof. Claudio Bassi

Correlatore: Dott. Roberto Salvia

Laureando: Alex Borin

Anno Accademico: 2012-2013

Neoplasie intraduttali papillari mucinose dei dotti periferici: is it time to (sometime) "spare the knife"?

Relatore: Prof. Claudio Bassi

Correlatore: Dott. Roberto Salvia

Laureando: Federico Accordini

Anno Accademico: 2011-2012

Il tumore cistico sieroso del pancreas, da patologia chirurgica a patologia medica? Rivalutazione critica di 241 casi consecutivi

Relatore: Prof. Paolo Pederzoli

Correlatore: Dott. Roberto Salvia

Laureando: Roberto Rossini

Anno Accademico: 2006-2007

Tumore solido pseudopapillare del pancreas: caratteristiche clinicopatologiche e strategia chirurgica

Relatore: Prof. Paolo Pederzoli

Correlatore: Dott. Roberto Salvia

Laureando: Creciun Mihail

Anno Accademico: 2006-2007
