PERSONAL STATEMENT

Expert of Environmental Microbiology (biodegradation of toxic organic pollutant and biotransformation of metals/metalloids)
Associate Professor in Microbiology at Department of Biotechnology – University of Verona (Italy)
Scientific coordinator of VUCC-DBT (Verona University Culture Collections – Department of BioTechnology)

Professor Lampis's research interests cover different aspects of environmental microbiology: i) toxic organic microbial biodegradation, ii) metals/metalloids bacterial biotransformation, iii) microbial synthesis of metal nanostructures and their exploitation in nanobiotechnology field, iv) bacterial production of biobased products such as biosurfactants and polyhydroxyalkanoates, v) plant growth promoting bacteria and bacterial endophytes even as biocontrol agents.. She is the scientific coordinator of VUCC-DBT, the microbial culture collection at University of Verona, which was established at department of Biotechnology (DBT) to support valorisation/exploitation of microbial resources in the agro-food, environmental and industrial sectors in the framework of the project funded by MIUR which awarded DBT as department of excellence in the "Chemical Sciences" area, to develop biotechnological solutions for green chemistry applications. At present, VUCC-DBT holds approximately 500 microbial resources (yeasts and bacteria) with biotechnological potential and expertise microbial manipulation, identification and characterization for different specific applications. Since 2021, the VUCC-DBT is member of the Microbial Resource Research Infrastructure Italian Node (MIRRI-IT).

WORK EXPERIENCE

(from 01/11/2019 – current)

Associate Professor in Microbiology

Department of Biotechnology – University of Verona

Strada Le Grazie 15, 37134 Verona, Italy

Main activities and responsibilities: Coordination of the Environmental Microbiology Lab in terms of research activities in the field of basic and applied microbiology, microbial biotechnology of environmental microorganisms for the development of industrial and environmental biotechnological application; coordination and participation of different research project; teaching and supervision of B.Sc., M.Sc. and PhD students; Coordination of the MS course in 'Biotechnology for the bioresources and eco sustainable development' LM8 at University of Verona; Establishment of VUCC-DBT at Department of Biotechnology at University of Verona. Participation in several Committee at Department of Biotechnology.

(from 01/10/2007 to 31/10/2009)

Assistant Professor in Microbiology

Department of Biotechnology – University of Verona

Strada Le Grazie 15, 37134 Verona, Italy

Main activities and responsibilities: Participation/Organization of research activities at the Environmental Microbiology Lab in the field of basic and applied microbiology and microbial biotechnology. Main Topics covered: i) investigation of Microbial transformations of toxic organic compounds (PAHs, PFAS; TPH), bacterial biotransformation of metals/metalloids, biosynthesis of metal nanostructures, investigation on plant growth promotion traits in environmental strains and endophytes; analysis of microbial communities specialized in PHAs production. Teaching and supervision of B.Sc., M.Sc. and PhD students. Participation in several Committee at Department of Biotechnology.

EDUCATION AND TRAINING

- (from 2006 – to 2007) **Postdoctoral Researcher**
University of Verona – Department of Science and Technology
Postdoctoral fellowship entitled 'Characterization of PHAs producing bacterial cenosis from acidogenic sludges through PCR-DGGE and study of respiratory chinones' (01/08/2006-30/09/2007)
- (from 2002 – to 2005) **PhD in Molecular, Industrial and Environmental Biotechnology** (XVIII ciclo)
University of Verona – Department of Science and Technology
Thesis title: "New insights in microbial transformations of selenium: a biotechnological perspective"
- (from 01/08/2004 to 31/07/2006) **Research fellowship**
University of Verona – Department of Science and Technology
Research fellowship entitled ' Study of soil-plant-microorganisms system for selenium hyperaccumulator plant species'.
- (from 01/10/2002 to 31/07/2004) **Research fellowship**
University of Verona – Department of Science and Technology
Research fellowship entitled "Molecular characterization of bacterial strains capable of transforming condensed thiophens in pure culture"
- (from 01/01/2002 to 30/06/2002) **Research fellowship** Institute for the Study of Ecosystem (ISE) Pisa CNR
- (from 1994 – to 2001) **Degree in Agro-Industrial Biotechnology**
University of Verona
Thesis title "Characterization of bacterial cenosis of the rhizosphere of *Astragalus bisulcatus*, selenium hyperaccumulator plant, potentially exploitable for soil bioremediation protocols through phytoextraction."

BIBLIOMETRIC PARAMETERS

Author of Publications
60 documents; 2388 Citations by 1887 documents; h-index: 28; 135 co-authors (SCOPUS); 40 documents; 1471 Citations by 1147 documents; h-index: 22; 416 co-authors (WoS); 2394 Citations; h-index: 24; i10-index: 37 (Google Scholar); Research project funding success rate: 20% (25 funded/125 presented)

Author of 3 book Chapters

INSTITUTIONAL RESPONSIBILITIES

- (from 2007 - current) Member of the Department Council at the Department of Biotechnology – university of Verona
- (from 2009 – current) Member of the Teaching Council in Biotechnology at the Department of Biotechnology – University of Verona
- (from 2014 – to 2016) Member of the Equity Commission at the Department of Biotechnology – University of Verona
- (from 2019 – current) Member of the College of teachers of the Doctoral Program in Biotechnology of the University of Verona.
- (from 2019 – current) Coordinator of the Master degree course in ' Biotechnology for the bioresources and the Eco sustainable development) at Department of Biotechnology – University of Verona

PROJECTS

- (2000 – current)
CURRENT RESEARCH PROJECTS
As Principal Investigator
2018-2022 JP2018- UniVR - 'Microbially-tailored biobeds to face on-farm point-source pollution at areas devoted to filling and cleaning operations of

pesticide application equipment.

- 2022-2024 JointResearch project co-founded by UNIVR entitled ' Development of biotechnological products to bioremediate soil matrices polluted by triazole compounds'
- 2022-2025 SUS-MIRRI.IT Strengthening the MIRRI Italian Research Infrastructure for Sustainable Bioscience and Bioeconomy – in the frame of PNRR Infrastructures:
- 2023-2025 PRIN2022 – Se4SAFE – Coordinator of the Research Unit at the Dept. of Biotechnology – University of Verona

As member

- 2021-2023 Cariverona - Sviluppo di nanoemulsioni di origine naturale ad azione antibatterica per la protezione delle colture: dal laboratorio al campo.
- 2019-2022 Regione Veneto Bando - DGR N. 736 Misura 16.1- MI.DI.FEN.DO. Uso di Microrganismi nella Difesa della vite contro la FlavEsceNza
- DOrata -

PAST RESEARCH PROJECTS

- 2017-2021 TEMART - Tecnologie e Materiali per la Manifattura artistica, i beni culturali, l'arredo, il decoro architettonico e urbano e il design del futuro - RIR - Regione Veneto
- 2017-2021 JP2017-UNIVR- 'Development of synthetic textile materials with antimicrobial properties by using biogenic selenium nanoparticles'.
- 2017-2020 JP2017 - UNIVR – ' Messa punto di un protocollo per la colonizzazione endofitica in Vitis vinifera del batterio "plant growth-promoting" Pseudomonas protegens MP12 per l'acquisizione di resistenza all'attacco di funghi fitopatogeni'. (member)
- 2016-2017 Programma Operativo FSE 2014-2020 – Asse 'Capitale umano' – Regione Veneto – 'Analisi dell'efficacia di bionanomateriali per l'inibizione ed eradicazione di biofilm microbici su superfici ad uso industriale'. (P.I.)
- 2016-2019 JP 2015 - UNIVR – 'Biological reclamation of polluted dredged sediments'. (P.I)
- 2016-2017 Programma Operativo FSE 2014-2020 – Asse 'Capitale umano' – Regione Veneto – 'Sviluppo di una procedura innovativa per il restauro di manufatti lapidei di interesse artistico mediante bio-pulitura e bio-cementazione, basata sullo sfruttamento integrato di microorganismi idrocarbonoclastici e del processo di carbonatogenesi microbica'. (member)
- 2015-2018 JP 2014 – UNIVR – 'Biocleaning of stone artworks by a combined use of hydrocarbon degrading microbial strains and sulfate reducing bacteria'. (member)
- 2012-2014 JP 2011 – UNIVR – 'Sviluppo di Inoculi Microbici per il recupero di terreni forestali percorsi da incendio'. (member)
- 2007-2011 Regione Toscana – APQ Ricerca e trasferimento tecnologico per il sistema produttivo: "R.E.P.E.T. (Rhizosphere-Enhanced Phyto-Extraction Technology)"; (member)
- 2011-2013 MAE - XVII Executive Programme of Scientific and Technological Co-operation between Italy and Hungary for the years 2011-2013: "Optimization of soil-plant- microbe interactions in the bioremediation of soils polluted with toxic organic compounds and heavy metals" (member)
- 2008-2010 MAE - XVII Executive Programme of Scientific and Technological Co-operation between Italy and Hungary for the years 2008-2010: "Plant-microbe interactions in bioremediation of polluted environmental matrices" (member)
- 2006-2008 MIUR PRIN 2005 – "Dinamica e caratterizzazione molecolare delle cenosi batteriche accumulatrici di polioidrossialcanoati a seguito di processi sequenziali anaerobici/aerobici per lo sfruttamento delle acque di vegetazione dei frantoi oleari" (member)

INTERACTION WITH PRIVATE COMPANIES

2005 to today; numerous fruitful collaborations with private companies through the activation of conventions, services or co-financed projects of research and development in mainly in environmental microbiology and industrial microbial biotechnology

REVIEWER'S ACTIVITY AND EDITORIAL BOARD

Act as a reviewer for: African Journal of Microbiology Research; AMAB - Applied Microbial and Biotechnology, Applied Water Science; Bioresource Technology; BFSO - Biology and Fertility of Soil, Chemosphere; Ecotoxicology and Environmental Safety; Environmental Science and Pollution Research; Int J Phytoremediation, Journal of Hazardous Materials; Microbial Biotechnology, Microbial Cell Factories, New Biotechnology, Plants, PLOS ONE, Microorganisms.

TEACHING ACTIVITIES

(from 2007 – current)

Lecturer of 'Biotecnologie microbiche industriali [6 CFU]' - CdS 'Biotecnologie per le biorisorse e lo sviluppo ecosostenibile' [LM8-UNIVR] - aa 2019/2020; 2020/2021; 2021/2022; 2022/2023

Lecturer of 'Biotecnologie' [6 CFU]' - CdS BIOTECNOLOGIE PER L'AMBIENTE E LO SVILUPPO SOSTENIBILE [LM8-Ca' foscari Venezia] - aa 2020/2021

Lecturer 'Microbiologia ambientale e biorisanmento' [3 cfu]- CdS 'Biotecnologie per le biorisorse e lo sviluppo ecosostenibile' [LM8-UNIVR] - aa 2020/2021; 2021/2022; 2022/2023

Lecturer 'Microbiologia del suolo e interazioni pianta-microorganismi' [4CFU] - CdS Biotecnologie [L2 UNIVR] aa 2020-2021; 2021/2022; 2022/2023

Lecturer 'Microbiologia'-Practical class -[2CFU] aa 2015-2016: 2016-2017; 2017-2018; 2018-2019; 2019-2020, 2020-2021; 2021/2022

Lecturer 'Biotecnologie per la bioeconomia circolare' [2 CFU] – CdS Biotecnologie [L2 UNIVR] aa 2021/2022; 2022/2023

Lecturer 'Microbial biosynthesis of nanostructured materials [6 CFU]- CdS Scienze dei Bio e Nano Materiali [LM-53 Università di Venezia Ca' Foscari] aa 2013-2014; 2014-2015; 2015-2016; 2016-2017; 2017-2018; 2018-2019;

Lecturer 'Metodologie di Microbiologia' [3 CFU] - CdS Biotecnologie [L2 UNIVR] aa 2009-2010; 2011-

2012; 2012-2013; 2013-2014; 2014-2015

Lecturer 'Microbiologia Applicata Ambientale' [3,5 CFU] CdS In Biotecnologie Agro-Industriali UNIVR)
aa 2007-2008, 2008-2009, 2009-2010

A comparison of the response of two *Burkholderia fungorum* strains grown as planktonic cells versus biofilm to dibenzothiophene and select polycyclic aromatic hydrocarbons. *Can J Microbiol*. 2016 Oct;62(10):851-860. <https://doi.org/10.1139/cjm-2016-0160> Epub 2016 Jun 7.

2015

Zonaro E., Lampis S., Turner R.J., Qazi SJS, Vallini G. Biogenic selenium and tellurium nanoparticles synthesized by environmental microbial isolates efficaciously inhibit bacterial planktonic cultures and biofilms. *Front. Microbiol*. 2015 | <http://dx.doi.org/10.3389/fmicb.2015.00584>

Zeppilli M, Villano M, Aulenta F, Lampis S, Vallini G, Majone M. Effect of the anode feeding composition on the performance of a continuous-flow methane-producing microbial electrolysis cell. *Environ Sci Pollut Res Int*. 2015 22(10):7349-60. doi: 10.1007/s11356-014-3158-3. Epub 2014 Jul 5.

Andreolli M, Lampis S*, Brignoli P, Vallini G. Bioaugmentation and biostimulation as strategies for the bioremediation of a burned woodland soil contaminated by toxic hydrocarbons: A comparative study. *J Environ Manage*. 2015 Apr 15;153:121-31. doi: 10.1016/j.jenvman.2015.02.007

Lampis S*, Santi C, Ciurli A, Andreolli M, Vallini G. Promotion of arsenic phytoextraction efficiency in the fern *Pteris vittata* by the inoculation of As-resistant bacteria: a soil bioremediation perspective. *Front Plant Sci*. 2015 Feb 18;6:80. doi: 10.3389/fpls.2015.00080.

2014

Lampis, S*, Zonaro, E., Bertolini, C., Bernardi, P., Butler, C.S., Vallini, G. Delayed formation of zero-valent selenium nanoparticles by *Bacillus mycoides* SelTE01 as a consequence of selenite reduction under aerobic conditions. *Microbial Cell Factories* 2014 13(1):1-14 doi: 10.1186/1475-2859-13-35.

Piccoli S, Andreolli M, Giorgetti A, Zordan F, Lampis S*, Vallini G. Identification of aldolase and ferredoxin reductase within the dbt operon of *Burkholderia fungorum* DBT1. *J Basic Microbiol*. 2014 May;54(5):464-9. doi: 10.1002/jobm.201200408.

Bertolini C, van Aerle R, Lampis S, Moore KA, Paszkiewicz K, Butler CS, Vallini G, van der Giezen M. Draft Genome Sequence of *Stenotrophomonas maltophilia* SelTE02, a Gammaproteobacterium Isolated from Selenite-Contaminated Mining Soil. *Genome Announc*. 2014 May 8;2(3). pii: e00331-14. doi: 10.1128/genomeA.00331-14.

2013

Di Fabio, S., Lampis, S., Zanetti, L., Cecchi, F., Fatone, F. Role and characteristics of problematic biofilms within the removal and mobility of trace metals in a pilot-scale membrane bioreactor *Process Biochemistry* 2013 48(11):1757 - 1766 <https://doi.org/10.1016/j.procbio.2013.08.005>

Andreolli M., Lampis S. *, Poli M., Gullner G., Biró B., Vallini, G. Endophytic *Burkholderia fungorum* DBT1 can improve phytoremediation efficiency of polycyclic aromatic hydrocarbons *Chemosphere* 2013 92 (6): 688 - 694. doi: 10.1016/j.chemosphere.2013.04.033.
