Foreign students planning to take part in the Erasmus program at the University of Szeged, **Faculty of Medicine** are kindly asked to take into consideration the prerequisites below before they begin composing their Erasmus learning agreements.

- You are required to select the courses you wish to take from a single year only — do not take courses from multiple years.
- You are required to select courses from a single semester only if you are visiting for only one semester.
- Since most courses are made up of two components, both of which are required to be completed in order to be awarded the credit points assigned to the course, please include both components (lecture and practice/seminar) in your learning agreement. Make sure that you use the exact title of the course.
- Include every course's course code in your learning agreement, because it will help the University identify the course more easily.

University Of Szeged established Psychological and Counselling Centre for Students & Office for Students with Disabilities which assures different mental-hygienic services for ERASMUS visiting students of the University of Szeged.
