#### Correspondence of Portuguese and European Grading Scales

In accordance with Article 19 of Decree-Law 42/2005 published on 22/02/2005 in the Official Journal of the Portuguese Republic under Section II (European grading scale), the correspondence between the European grading scale and the Portuguese grading scale is composed of 5 segments (classes), identified by the letters A to E.

In the 10-20 interval of the entire 0-20 numerical scale in use in Portugal, the European grading scale adopts the following correspondence:

**A:** grade 20 –  $p$ , where  $p$  is the classification that incorporates, in this segment, 10% of the students;

**B:** grade  $p-1$  to  $q$  where  $q$  is the classification that incorporates, in this segment combined with the previous segment, 35% of the students;

**C:** grade  $q-1$  to  $r$  where  $r$  is the classification that incorporates, in this segment combined with the two previous segments, 65% of the students;

**D:** grade  $r-1$  to  $s$  where  $s$  is the classification that incorporates, in this segment combined with the previous segments, 90% of the students;

**E:**  $s-1$  to 10.

In applying the correspondence between the European grading scale and the Portuguese grading scale, as per the above-mentioned legal instrument, the distribution of classifications are calculated for a period of at least three years and for a sample of at least 100 students.
