Our Spanish Program

Please note that language courses, including Spanish, have a fee for both national and international students and are not part of the standard program curriculum. While these courses don't offer academic credits directly, students may request credit recognition from their home universities after completing the Spanish course.

Our **Buddy Program** is designed to support students participating in both national and international academic exchange programs as they transition into our university life and our culture.

Through our buddies, international students can access information about facilities, services, academic procedures, and the overall EAFIT system.

international students will benefit from guidance tailored to navigating life at Universidad EAFIT and in Medellín, including invitations to engage in social activities alongside local students, personalized support for cultural integration, and avenues for language exchange opportunities.

Housing

Each student is responsible for finding and securing accommodation. However, EAFIT has partnered with **VICO**, a platform that offers apartments close to the campus. **VICO** ensures that each apartment is thoroughly inspected and meets quality standards before being listed, providing our students with added confidence.

To explore accommodation options through VICO, please click [here](#).
